Those Who Were Present. The dancing season was opened in an auspicious manner last evening by Prof. Alf. Birmingham, at Washington ball, Capitoi hill. The weather was delightfully cool, and the attendance of ladies and gentlemen quite large. Music was farnished by a full orchestra, to the strains of which many merry couples engaged in the mazy whirls of the waltz and the graceful figures of the quadrille and lanciers, beneath the festoened and decorated ceiling. Prof. Birmingham was indefatigable in his efforts, and everybody declared him to be a gallant and graceful instructor. Among the merry throng graceful instructor. HAWAHAN COINS.

Money Manufactured in San Francisco for the Sandw ch Islands.

Superintendent of the Mint Burchard received yesterday samples of coins made at the San Francisco mint for the government of the Hawaiian islands, and has them on exhibition in his office in the treasury building. This practice is allowable by law, provided the country for whom they are made pays all expenses. The coin to be made will amount to \$1,000,000, as follows: 500,000 silver half deliars, 125,—11ver quarter deliars, and 75,000 silver out rises. Their manufactors will see that

Alver quarter dollars, and 75,000 silver ent pieces. Their manufacture will cost the Hawaiian government nearly \$23,000, the material being forwarded from that country. The designs of the saveral pieces are the same. On one side is the profile of King Kalakaus, with the date and name in Engglish. On the reverse is a group of crowns, with a patriotic inscription in the native language. Everyone who saw the samples pronounced them models of workmanship and art, and it is expected that they may lead other countries to have their money designed and coined in the United States.

A Heavy Defalcation in the Philadelphia Gan Office.

PHILADELPHIA, Sept. 6.-It is stated by trustees of the gas works that deficiencies have been discovered in the accounts of that office, and that the defalention may exceed \$150,000. The investigation has been in progress for some time past, and startling revelations are promised. The frauds are said to have been discovered in the suspense account, and which is made up of the bills of concumers that have not been paid, but are conditions that have not been paid, but are held for future action. The examination has not been concluded, and the trustees have declined to give particulars, although they admit the correctness of the report.

The Cut Rates at St. Louis.

St. Louis, Sept. 6.—The restoration of rail-way rates to Chattanooga went into effect this morning. The Ohio and Mississippi railway company has also restored the Evansville rates. The air line has also raised the Cinnati rate to \$5.50, and it is likely to remain at that figure during the exposition. This nar-rows the fight down to the Ohio and Missis-sippi and the air line on Louisvilla business, and the \$1 rate to that point still prevails.

A New Rallway Company Incorporated. HARRISBURG, PA., Sept. 7.—A charter was issued this morning to the Martin's Creek and Stroudsburg railway to construct a line from Martin's creek, on the dividing line between Ponnsylvania and New Jersey, to Strondsburg, Monroe county, a distance of forty miles. The capital stock is \$750,000. Lost in a Storm.

Treasury Promotions. Mrs. D. J. Apple has been premoted from \$1,000 to class one in the sixth auditor's office, Treasury department, and Mrs. M. A. Curtis from \$900 to \$1,000. Upon the return of Secretary Folger a requisition will be made upon the civil service commission for a clerk, a lady to fill the vacancy in the \$900 class. This will be the second appointment in the Treasury department under the civil service rules. In both cases the vacancies originally

occurred in the upper grades, but promo-tions were made until they existed in the \$900 grade only. Miss Hoyt, of Connecticut, who was the first civil service appointee, has reported for duty, and is now at work in the redemption agency.

He adds that, in view of what recently passed between Mr. Conley and an inspector of the Postofileo department, he is surprised that the former ahould now ask why he was removed. The allusion is supposed to be to admissions of delinquency made by Mr. Conley to the inspector and reported by the latter to the post-master general. master general

INDEPENDENCE IN THE SOUTH. Asking the Sympathy of the North for Opposition Movements.

New York Tru Washington, Sept. 5.—Col. E. B. C. Cash, of South Carolina, remarked to a correspondent of the Times to-day that he did not think the people and newspapers at the north took the right view of the independent movement in his state. As for himself, he was in no sense an office seeker, did not come to Washington to get control of office patronace, and did not profess to be a republican. Said Col. Cash, "I am a democrat, but I left the bourbon democracy because I could not stand their methods any longer. In my state the bases have become so corrupt and savage that they have for feited every claim upon decent, peace leving, patiotic citizens. They have grossly violated every pledge made in 1870. They do not regard their most sacred onths, nor have they any consideration for the rights of anybody, and they are plunging the state into distress and ruin. Elections are an absolute farce. The whole machinery is in the hands of the bourbons, and any majority is returned that is considered necessary. Violence is resorted to where froud fails, and the rioters know they will not be punished. The bourbons defend basses have become so corrupt and savage that not be punished. The bourbons defend their course on the ground that it is necessary to keep negroes out of office, but, as a matter of fact, there is no race Issue at stake. Last fall the entire state and congressional ticket, and almost every place on the county independent tickst, were white and our candidates were fully equal to theirs in all that makes up good citizenship. On a fair vote we should certainly have carried my district and the state. Almost all the colored people go with us. There are searcely enough white remulticant of the factors of fill the federal offices. of fact, there is no race issue at stake. Last white republicans to fill the federal offices, and the few who are there do not possess the confidence of the colored people. I think northern newspapers ought to deal with more sympathy with these opposition movements at the south. They go far toward making honost elections possible, and it is through them that the tyrannical democratic machine can be overthrown.

There is one question I should like to ask "There is one question I should like to ask the Times and the north generally," said Col. Cash, in conclusion, "and it is a timely and important one. In case a democrat is declared elected president next year by the help of certain states at the south, namely Alabama, Mississippi, Louisiana, and South Carelina, carried by the notoriously unlawful methods which now prevail in those states—what are the people at the north going to do what are the people at the north going to do

Birds Secoming More Plentiful. Local gunners report that ortolan are beoming more pleutiful in the marshes, while reed birds are probably at their "full." A number of excellent scores were made yes-terday. The above birds are in active deterday. The above birds are in active demand in the market. Ortolan readily bring \$2 per dozen, and reed birds from \$1 to \$1.50 per dozen. No ducks or snipe have yet been killed. Reports from the adjacent country indicate that rabbits will be plentiful this season, as they can already be seen bobbing about in the fields. Very few partridges have appeared in the market so far.

FISHING AT RIP RAPS.

"The Miserable Six" Disport Themselves Near Fortress Monroe.

RIP RAPS, Aug. 28.-Accepting an invitation from the "Miserable Six l'ishing club," of Washington, your correspondent embarked on the steamer Lady of the Lake, at Washington, last Saturday afternoon, and reached Fortress Monroe at 7:30 next morning. Fortress Monroe, in addition to being a

large military post, is the site of the Hygela hotel, which is a famous resort for persons seeking comfortable summer quarters. The United States own here an area of 252 acres, which was ceded by the state of Virginia in 1821. The fort was named in honor of President Mouroe. The sailing vessel of the Misorables was found at the wharf at Fortress Mouroe with several of its members, who came to welcome their guests, and we were Mource with several of its members, who came to welcome their guests, and we were speedily conveyed across the water, about one mile southward, and wore landed at the Rip Rap wharf. A bountful breakfast of rish, flesh, foul, and all the delicacies of the season and the locality, was soon spread before us, and, as appetites were not wanting with any of the party, a hearty and enjoyable meal was dispatched in short order.

The Miserable Fishing club was organized in 1877, and was originally restricted to six members, but in the last year or so the number of active members has been increased. The club consists of Capt. B. W. Summy, who is treasurer and secretary, Fred S. Newman steward, and Thomas Duke, W. A. Craig, J. E. Warder, H. H. Smith, George W. Waite, and E. A. Barnard. Permission has been obtained regularly each year by the club for the past four years, to camp on the Rip Raps, from which

the past four years, to camp on the Rip Raps, from which to do their fishing. The place is happily chosen. It lies about one mile nearly south of Fort Monroe, and is an artificial island. Its location was selected for the reason that it was considered the key to the entrance of Hamster cred the key to the entrance of Hampton roads. Its construction was commenced in 1820. The government, by contract, had loads of stone brought to the location and deposited in the water until an island of solid stone was formed. This being accomplished, the erection of a fort was begun, which was called Fort or Castle Cathoun, in honor of the secretary of war of that name. When Gen. Totten became chief engineer of the army, he drew and submitted to congress plans of a fortress of an oval form to encircle the entire island, and to mount 300 encircle the entire island, and to mount 300 gans. Work was commenced, and the stone work surrounding about three-fourths of the island was constructed of stee brought from near Richmond, Quincy, Mass., and Fox Island, Me. Altogether, something over two and a half millions of dallars have been expended on the work. The great improvements made in cannon and projectiles in the past few years led to the belief that the plan of the fort was not such as to resist an attack from modern guns, and work on it has for some years been abandoned. An old

for some years been abandoned. An old sergoant of the United States army is the only representative the government has on the island, and except when re-enforced by the presence of the genial "Miserable club" he lives the life of a hermit, with no companhe lives the life of a hermit, with no companious, except a few chickens and a one eyed
yaller dog. He has not even a
flag to float out in the breeze, and
give notice to the foreign ships which seek
shelter in the roads that Rip Raps is a military post of the government. The old sergeant is a genial, talkative old soldier, who
shows with great pleasures rapidly tumbling
down old house, in which President Lincoln
and Secretary Chase stood and watched the and Sceretary Chase stood and watched the embarkation of Wool's army on its way to Norfolk. But Rip Raps aside, the Miscrables are badly named. They are certainly the least miscrable set one ever meets with, and understand the art of making others have to a decrease which approaches perfections. and understand the art of making others happy to a degree which approaches perfection. On Sunday they were visited by the "Innocents Abroad," and Ella Treadwell yachting club, and a number of friends from Washington, among whom were Mr. Frank G. Saxton, Thomas C. Sprague, Thomas R. Senior, G. Leonard, Mr. Harding and wife, Mr. Potter, Mrs. H. H. Smith, St. Capron, and others. The weather here is delightful, the sailing very pleasant, the fishing good, and the "Miscrables," and all their guests happy.

A Pleasant Barge Party. One of the most pleasant barge parties of this season left the Potomae boat house in their beautiful barge loaded with fair passengers last evening. There were also a few private boats, and one carrying Prof. Miller's string band. Their landing was reached about 6 o'clock. While some were dancing others were spreading the table from the heavily laden backets.

A nevelty was introduced to the same of the s this season left the Potomac boat house in

laden baskets.

A novelty was introduced in the way of a hot cup of coffee, which was very much appreciated. Those present were Misses B. Jirdinstone, F. Johnson, Lillie Cavanaugh, Lottie Ramsburg, Blanche Waters, Cotteril, Marie De Ronceray, Madge Burke, Misses Taylor; the gents, William Hungerford, Jack Taylor, John Yarrow, Ernest Arthur, May Hunter Galt, Lem Bradley, Stewart, Doty, Ridenour, Phillips, Hughes, Wootin, Dr. Finley, and Mr. Guy. The party returned to the boat house, where dancing was continued until a late hour. continued until a late hour.
